PROJECTS

Portfolio

I created this project to showcase my achievements and my journey.

Expense Calculator

I developed this project to learn more about MERN Stack. I used React JS (Typescript) and MUI for frontend design, and Node JS with Express JS for the backend. This project also helped me with data management and displaying data using graphs.

SKILLS

Frontend Development

Javascript (React JS), Typescript, HTML, CSS, Bootstrap, Tailwind, Material UI (MUI), Java, Python

Backend Development

Javascript (Node JS, Express JS), PHP (Laravel)
